What is Global Market Access?

- Market access is the process of determining applicable regulations and managing product compliance with the aim of accessing global markets. TÜV SÜD has a dedicated Global Market Access (GMA) team, focused solely on managing compliance for global market access.
- Our team weaves through the web of regulatory framework and certification processes, providing solutions for Global Market Access.

Your Challenges

GMA country solution is set up based on

Own certification body	Third-party accredited bodies	Bilateral agreements	Multilateral agreements	Governmental MRAs	Interface with regulators
TÜV SÜD is accredited certification body for specific country certification scheme.	Local regulators define the requirements for Certification Bodies to be accredited for the provision of third-party certification services.	Bilateral agreements or Memorandums of Understanding allow approvals or certifications for products to be obtained between target countries' Certification Bodies	Mutual recognition of multiple national Certification Bodies.	Mutual Recognition Agreements are inter-governmental recognition of each other's Certification Bodies and approvals.	Certification is issued by the target country's regulatory agency.

SASO CoC Vs SALEEM

CoC:

In 2004, the Ministry of Commerce and Industry (MoCI) issued a decree 6386, which introduced the scope of the regulated products to cover all consumer related products and mandating that all such products would require a Certificate of Conformity (CoC) for entry into the Kingdom of Saudi Arabia.

SALEEM:

Since 1st April 2019, SABER/SALEEM is implemented as the new conformity assessment program in Saudi Arabia which will **replace the recent CoC program**. The program is officially started and gradually implementation is in process. Products are classified into regulated and non-regulated depending on the risk level.

Difference between CoC and SALEEM

	CoC	SALEEM
Scheme initiated by	Importer or exporter	Real importer through registration on SABER
Issued certificate	Each shipment accompanied by a CoC	- PC (product certificate): Regulated products valid for 1 year - SC (shipment certificate): by each shipment
Factory audit	Not mandatory	Mandatory for Type 3 approval – Children's products and underwear
Shipment inspection	Not required, only invoice verification	Not required, only invoice verification
Certificate form	Hard copy issued	E-certificate issued through SABER
Platform	Issued by notification body	Issued by notification body via SABER platform which is the system where importers, notifies bodies and Saudi Customs are involved in certificate issuance and validation process.
Validity	By shipment	Product Certification : 1 year; Shipment Certification : by shipment

Regulated products

SASO CoC

Footwear and leather products

The technical regulation is not issued yet, so no short term implementation

Doors, Windows, Glass and their Accessories

- Degradable Plastic Products
- Machinery and Equipment Portable
- Electric Batteries
- Telecommunications Device
- Rides & Devices of Amusement Parks
- Materials and Surfaces contacted with the Food
- Other non regulated products (Pen, Pencil, note books, etc.) please refer to HS code excel
- Automotive spare parts
- Textile products
- personal protective equipment

SALEEM on SABER portal

It is planned that all consignments of imported goods should be regulated under SALEEM with gradually implementation. Products are classified into regulated and non-regulated depending on the risk level. Till NOW, SABER certification is Mandatory for the following scopes:

1. LVE
2. Toys
3. Lubricants
4. LPG appliances
5. Building Material (Steel, Concrete, Cement, Sanitary ware, pipes)
6. Elevators
7. Electrical Self-Balancing Boards (Scooter)
8. Biodegradable Plastic Products
9. Electric batteries
10. Truck barriers
11. Paints and varnishes

Starting from
2019, December
1st

Textile and apparel, including underwear for both adults and children

What is SASO CoC?

Document for imported goods Custom clearance in Saudi Arabia.

To ensure product conformity to applicable and mandatory standards and technical regulations.

The authorities in Saudi Arabia may take random samples from imported consignments to verify compliance.

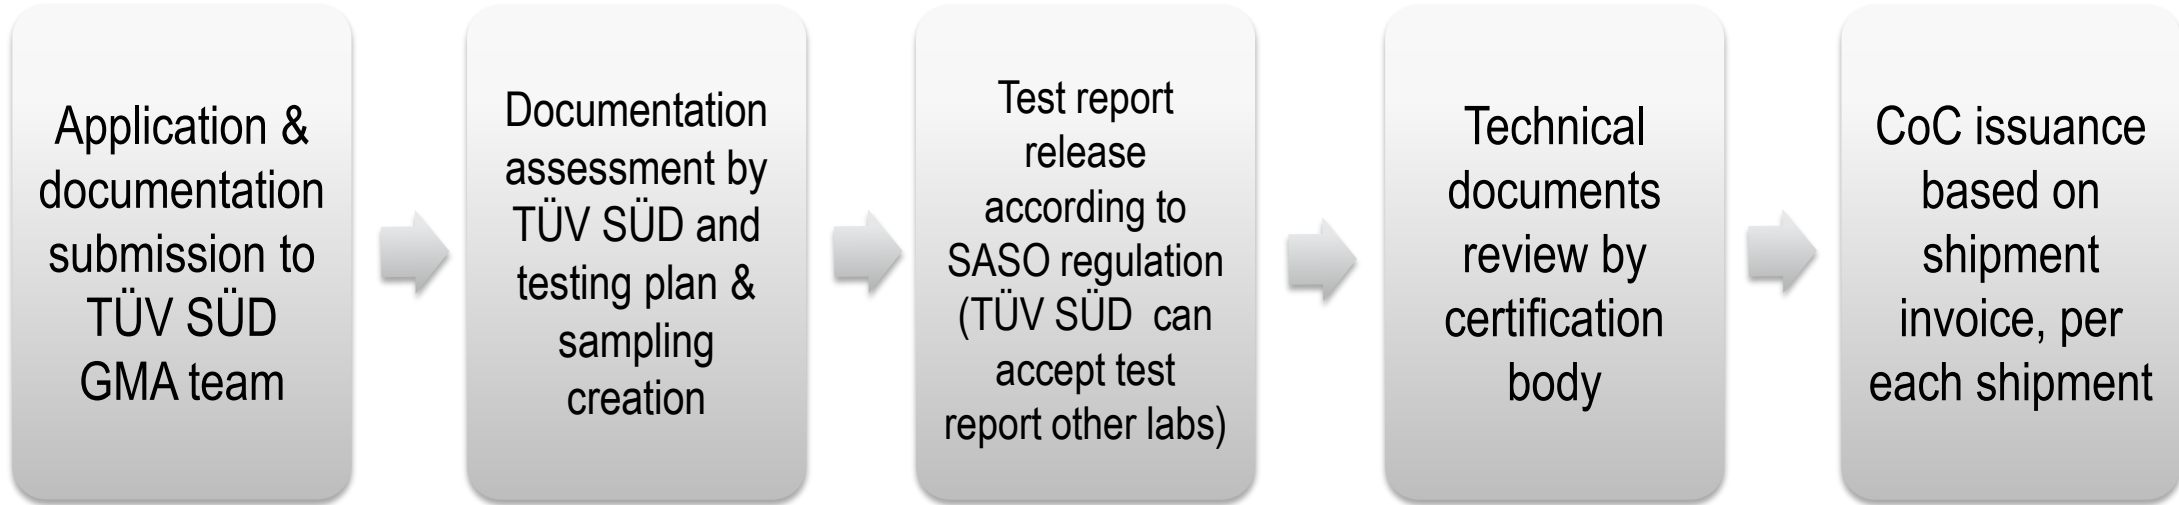

If the shipment arrives to any Saudi Arabia ports without a Conformity Certificate, it will require to be tested by an approval local laboratory.

SASO CoC

Application documents:

- Application for Certification
- Declaration of Conformity(Print on applicant's letterhead, signed and stamped)
- Latest Test Reports from accredited laboratory (ISO 17025) complying to SASO requirements
- Trade license (for invoicing only)
- Actual product photos, marking and its label.

SASO CoC process

SASO CoC TAT is 3-4 days

SALEEM implementation

- Starting from January 1st 2019, the current conformity program by the Saudi Standards, Metrology and Quality Organization (SASO) has been replaced by the Saudi Product Safety Program (SALEEM).
- With this, the SASO has developed a new online portal called SABER system.
- SALEEM is to replace the current Saudi product conformity assessment program and introduces SABER platform which will be the window entry for importers to request the electronic Certificate of Conformity or the Certificate of Shipment conformity.

SALEEM implementation

On 24 August 2018, the Saudi Standards, Metrology and Quality Organization (SASO) published the Official Gazette for the **Technical Regulation of Textile Products 02-05-18-164 M.A.** This new technical regulation applies to all textile products which are placed on the market of Saudi Arabia. The exporters of textile products shall comply with the provisions of this new technical regulation.

Textile products will be mandatory to be registered with SABER on 1st of December 2019.

HS codes under the technical regulation of textile products

According to the technical regulation about textile products 02-05-18-164 M.A the products represented by the following HS codes are in the scope of this standard:

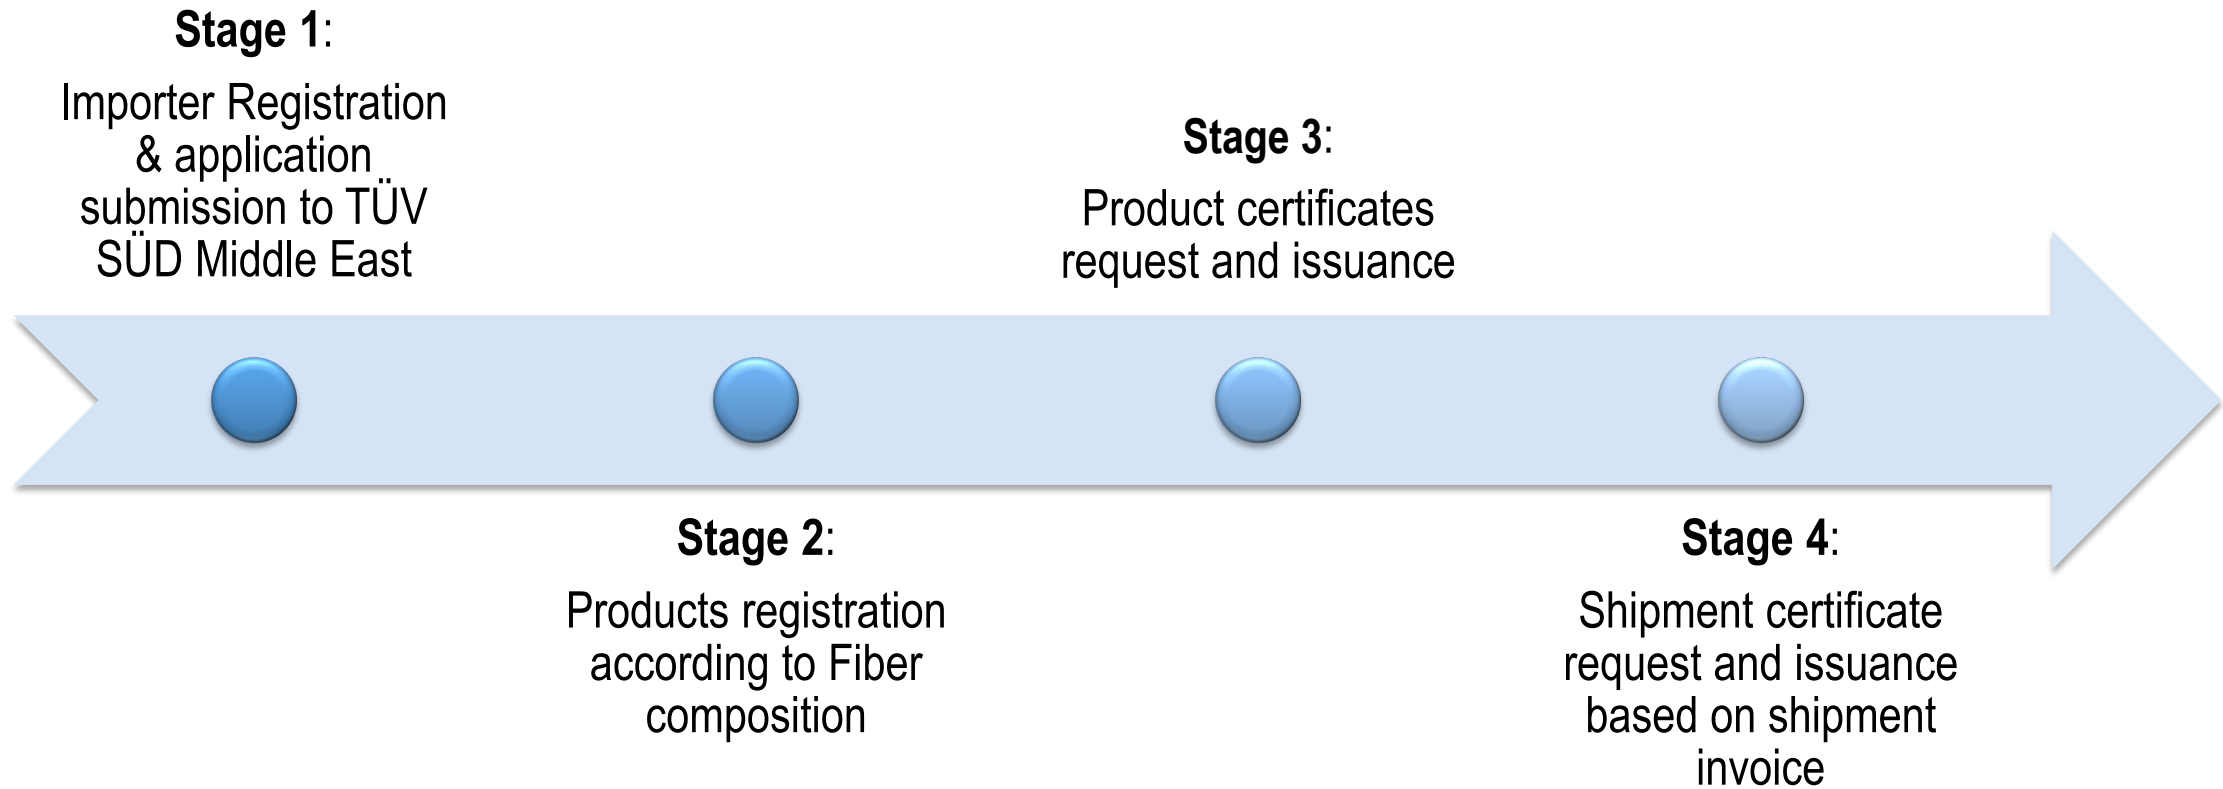

HS Code Product Name No.

- From 500100000000 To 500720000000 Silk
- From 510100000000 To 511300200000 Wool
- From 520100000000 To 521225000000 Cotton
- From 530100000000 To 531100000000 Other natural fibres of vegetable origin. such Linen, hemp
- From 540100000000 To 540834000000 Nylon and other polyamides
- From 550100000000 To 551694000000 Polyethylene and polyesters
- Woven fabrics of polyamide fibres mixed mainly or exclusively with polyester fibres
- Woven fabrics of polyamide fibres mixed mainly or exclusively with viscose fibres
- From 560100000000 To 560900900000 Wadding, felt and non wovens, special yarns, ropes, cables...
- From 570100000000 To 570500900000 Rugs and carpets and other textile coverings.
- From 580100000000 To 581100000000 Woven Pile fabrics Printed badges, gowns and ribbons.

HS codes under the technical regulation of textile products

- From 590100000000 To 591190009990 Textile fabrics coated with gum or amylaceous substances,
 - From 600100000000 To 600960000000 Pile fabrics knitted or crocheted
 - From 610100000000 To 611790000000 Articles of apparel and clothing accessories knitted and crocheted
 - From 620100000000 To 621799990000 Articles of apparel and clothing accessories non knitted and crocheted

SALEEM certification

What is the conformity assessment procedure?

This new technical regulation aims to lay out the basic requirements for the textile products and the conformity assessment procedures that the suppliers of textile products must comply with when placing the textile products on the market. The suppliers of textile products must obtain a certificate of conformity issued by a notified body according to the following product types:

Product Type/Scheme	• Type 1A – Textile products other than children’s products and underwear • Type 3 – Children’s products and underwear Type 1A 3 – XX years Type 3 0 – 3 years
Process Main steps	Step 1: Importer registration on SABER portal Step 2: Application and document submission by supplier (manufacturer/importer) Step 3: Document review by Certification Office Step 4: Factory Audit will be done only <u>for Type 3 product type</u> Step 5: Obtain Certificate of Conformity

SALEEM certification
